<b>Number:</b>	<b>10 / 02</b>	<b>Date: 29 January 2010</b>

**Title** **Assuria Auditor AutoUpdate #104 released**

**Introduction** This update is an Assuria content update. The update is compatible with, and suitable for application to all Assuria Auditor agents.

**Contents**

**PatchChecks Security Policy** As part of our continued development of Assuria Auditor, and feedback from our customers, we have implemented a change at *Assuria Auditor AutoUpdate #104* to the way patch checks are handled within the product.

A new Assuria policy, *PatchChecks*, will be issued for all platforms (Note, this already exists on IBM AIX 6.1 and Windows Server 2008 platforms).

The *PatchChecks* policy will contain only the patch checks relevant to the platform on which it is running. The *PatchChecks* policy should be run regularly and after the application of the Assuria AutoUpdate each month.

Please note, the *Initial-1*, *Initial-All*, *Maintenance-1* and *Maintenance-All* policies will continue to contain these patch checks up to Assuria AutoUpdate #110 to allow users to implement the required changes. Please see *Assuria Technical Note #18* for more information.

**Other bug fixes** A bug which affects the execution of the Scans Summary Report by Host or by Vulnerability in PDF and HTML mode has been corrected and is included in this update..

**Security Content Updates** Security content based on newly published vendor security bulletins (or similar) is included for the agents listed below:

- o HPUX 11.00, 11.11, 11.23, 11.31 (PA-RISC)
- o HPUX 11.23, 11.31 (Itanium)
