### Contents

Initial-1 policy and Running Patch Checks after AutoUpdate #110 As part of our continued development of Assuria Auditor, and in response to feedback from our customers, we announced in Assuria Bulletin 10-02 that at Assuria Auditor AutoUpdate #104 a change to the way the checks which verify the presence of vendor patches (patch checks) are handled within Assuria Auditor.

As previously notified, from the release of AutoUpdate #110, patch checks will be removed from the policies Initial-1, Initial-All, Maintenance-1 and Maintenance-All.

Users wishing to execute the patch checks should do so by running the policy PatchChecks.

The PatchChecks policy only contains the patch checks relevant to the platform on which it is running. The PatchChecks policy should be run regularly and after the application of the Assuria AutoUpdate each month. Initial-1, Initial-All, Maintenance-1 and Maintenance-

All policies continue to contain the Patch Checks up to Assuria AutoUpdate 110 to allow users to implement any changes to their own procedures.

Please see Assuria Technical Note 18 for more information.
