

Title: Assuria Auditor agent for Windows 2008 Release 2 (W2k8 R2)

Number: 10-15

Date: 8th July 2010

Title **Assuria Auditor agent for Windows Server 2008 Release 2 now available.**

Introduction This Bulletin introduces a new Assuria Auditor agent to support Windows Server 2008 Release 2 (W2K8 R2).

Windows Server 2008 R2 *"Windows Server 2008 R2 builds on the award-winning foundation of Windows Server 2008, expanding existing technology and adding new features to enable IT professionals to increase the reliability and flexibility of their server infrastructures. New virtualization tools, Web resources, management enhancements, and exciting Windows 7 integration help save time, reduce costs, and provide a platform for a dynamic and efficiently managed data center." Source Microsoft web site.*

The Assuria Auditor agent for W2K8 R2 is a new agent designed for use with Windows Server 2008 R2 and should not be used on systems running earlier releases W2K8.
